Subject: Regulation of Retail Forex

To whom it may concern, I am just a regular guy trying to make some extra money. I have found forex to be one of the only ways to do that. If you change the leverage to 10:1 we will no longer have the opportunity. Please consider keeping the leverage to 100:1. I plan on supplementing my retirement income with forex. It is something I plan on doing the rest of my life. I trade and study constantly and consider this my second job. All you need is an account, computer and internet connection. If you take this away I am not sure I will ever be able to make ends meet when I am unable to work. I don't want to depend on social security or retirement benefits in the wake of what has happened to them in the last 10 years. Please reconsider and put to rest this law.

Thanks,
Brian Greer
