CFTC Comments

Dear CFTC Comments:

I am writing in support of the CFTC's Proposed Federal Speculative Position Limits that will reestablish speculative position limits on major energy commodities. This rule will provide stability to the marketplace and help prevent future price bubbles. The CFTC must quickly approve a strong rule to protect America's struggling economy.

Please act swiftly to curb the worst excesses of our current financial market regulations. Working Americans are being ruined; future Americans are being foreclosed upon.

Sincerely,

Matthew T. Witt
