CFTC Comments

Dear CFTC Comments:

I am a small business that delivers septic system products across 10-counties. Fuel prices are driving up the cost of my goods and deliveries. Banks are not loaning money for new homes so little is happening in the home building industry.

I am writing in support of the CFTC's Proposed Federal Speculative Position Limits that will reestablish speculative position limits on major energy commodities. This rule will provide stability to the marketplace and help prevent future price bubbles. The CFTC must quickly approve a strong rule to protect America's struggling economy.

Sincerely,

Wayne Dolezal
