CFTC Comments

Dear CFTC Comments:

I encourage the CFTC to adopt the Proposed Federal Speculative Position Limits before volatile fuel prices further harm the country's already weakened economy. It's unthinkable that our Congress Persons are NOT seeing or listening to what is going on in our Country that they vowed to serve with justice and understand- ing. Lately, highclass robbers are appearing in our midst. and we are allowing them to rob, because they are the friend of a friend. When are we going to start to CLEAN UP OUR CORRUPTED MESS! PLEASE, please, help us Congress Persons and pass the CFTC and use this tool to control this corruption!!!!

Sincerely,

Consuelo Urrutia
