CFTC Comments

Dear CFTC Comments:

I am writing in support of the CFTC's Proposed Federal Speculative Position Limits that will reestablish speculative position limits on major energy commodities. This rule will provide stability to the marketplace and help prevent future price bubbles. The CFTC must quickly approve a strong rule to protect America's struggling economy. I am sick and tired of market fundamentalism substituting for thought or rapacious self interest. If we can't regulate these companies to protect and promote the national interest, we should nationalized them.

Sincerely,

Paul Peloquin
