CFTC Comments

Dear CFTC Comments:

I am writing in strong support of the CFTC's Proposed Federal Speculative Position Limits that will reestablish speculative position limits on commodities. This rule will provide stability to the marketplace and help prevent future price bubbles. The CFTC must quickly approve a strong rule to protect America's struggling economy.

Further I encourage the CFTC to adopt the Proposed Federal Speculative Position Limits before volatile prices further harm the country's already weakened economy.

Sincerely,

Brian Houser
