Subject: Regulation of Retail Forex RIN 3038-AC61

To whom it may concern,

I believe it is my right to freely choose the amount of leverage that I am comfortable using. If leverage is reduced to 10:1, then I will just move my account to an foreign account which will ultimately result in the lose of money for US brokers. This will force the US brokers to layoff workers in an already unstable economy. I see no good that would come from reducing the leverage.

Regards,

Rufus Dugat III
