Subject: Regulation of Retail Forex

Hello,

RE: "leverage in retail Forex customer accounts would be subject to a 10-to-1 limitation,"

What is this? Iran or USSR?

Do you want to regulate everything these days? Maybe make it criminal to buy

Gold/Silver and any other currencies, other than USD? How about that???

Shut everyone out of the Market except your biddies from GOLDMAN SACHS?

Try to regulate those guys first, who rip off millions of Americans and cut there 401k savings in half

while double their profits..

Leverage already been cut by x 4 from 400 to 100

Not enough?

Please regulate GOLDMAN SACHS and JP MORGAN

And other Wall Street Crooks

For their illegal GOLD/SILVER shorting activities over last

20 years..

Thank you.

Mark Briloff

P.S

US traders will go offshore then and you going to lose your taxes..

Simple as that.
