Subject: Regulation of Retail Forex

In regards to the possible change in leverage to 10:1 of the Forex market. I see that as a reduction of my freedom. I believe I should be able to choose the amount of risk I feel I am comfortable handling. The implementation of 10:1 would drive me from the market as it would thousands of others resulting in a large number of lost jobs. Please leave it in it's present state.

RIN 3038-AC61

Thanks
