---

RIN 3038-AC61

To whom it may concern. Why would you restrict the leverage in forex trading. It is what makes forex so nice but yet so deadly. Thats why this should be a choice. What ever happens to are rights. When does it stop. If your trying to save people from losing money then make many announcements about leverage. Make people train better. This is just a way to cut out all us little guys trying to learn.
