Subject: Regulation of Retail Forex

Attn: David Stawick or to whom it may concern,

I want to ask as a red blooded AMERICAN VETEREN!!! If it is not to much to ask... Please leave the ratio's as they currently are. In the military we played by the rule, "If it ain't broken... don't fix it!" Now I know that i'm a very small fish in a huge pond asking for a real big thing here, however I just can't understand why people feel the need to fix things that are better left alone. If I feel a need to win/lose my hard earned dollars on this so called forex market... THEN SO BE IT! I don't need big brother looking over my shoulder in defense of my bottom line. I'm a pretty simple guy that likes to keep things simple. Please thank a VET
