Subject: Regulation of Retail Forex

Dear CFTC:

re: ID number **RIN 3038-AC61**

I am opposed to changing the retail forex trading ratio to 10:1. With most brokers, I can choose to use that ratio, but I am not limited to it as I would be under the proposed changes.

With all due respect, it's my money, not yours.

This proposal is another example of government overreaching to take away liberty, which is our right as Americans.

Thank you.

J Boles
