Subject:

To Whom It May concern,

I believe every person should have an opportunity to take part in a market where you can take part where the larger companies are without all their wealth. The 100:1 leverage is reasonable for the average person to trade in the market. If your agency takes the leverage to 10:1 this not resonable and this tells me you all are really looking out for the big guy and not for the little because lowering the margin will put the market only in the arena of the wealthy and this not fair.
