Subject: Regulation of Retail Forex

Re: Identification # RIN 3038-AC61

Dear Sir,

This is in regards to proposed regulation on retail Forex customer accounts, specifically the amount of leverage. If the proposal goes through and 100:1 leverage becomes 10:1, it will take out a lot of good citizens with low investments to trade in Forex market. Many people like me will have to close our accounts, because we will no longer be able to trade. I urge you to reconsider your proposal and even reverse it.

Sincerely,

Abbas Hamidi,
A citizen trying to get
into Forex market
