**Subject:** Regulation of Retail Forex

---

**RIN 3038-AC61**

I feel that the proposed leverage change is grossly unfair and will hinder the liquidity of the Foreign Exchange market. I stand behind the belief that we should be given the freedom and right to choose the amount of leverage that is appropriate for your individual desired risk, and that this basic principle of 'choice' and you are putting that in jeopardy in the proposed CFTC regulations.

Thanks,

Jeff Blackman
