Subject: Regulation of Retail Forex

Mr. Stawick,

As a retail forex trader, I am writing to voice my objection to the CFTC's proposed regulation (RIN 3038-AC61)* *that would lower the leverage allowed in retail forex trading to 10:1. Part of the allure of retail forex is being able to trade at higher leverages, and I feel this restricts some of the trader's freedoms in this area.

Sincerely,
Scott Henry
Franklin, IN
