Dear Mr. Stawick:

Honorable Mr. David Stanwick,

I am writing in support of the CFTC's Proposed Federal Speculative Position Limits that will reestablish speculative position limits on major energy commodities.

Here's a not-so-new idea we should also consider... Let investors and speculators buy and sell all the energy inventory they wish - so long as they take physical delivery of the product and deliver it to the new purchaser when sold.

Sincerely,

Jon Cathers
