Subject: Regulation of Retail Forex

Dear Secretary,

I currently use part of my trading income to pay the bills. If you reduce the leverage to 10:1, I will no longer have enough money in my trading account to trade the way I do and pay my bills. I can live with 50:1 leverage, anything less and I will have to close my trading account and open it up in another country that will let me trade with at least a 50:1 leverage. I know I am not the only one that will be doing this if the leverage is reduced to 10:1. Please do not do this.

Regards,

Travis Cass (Retail Trader)
