**Subject:** Regulation of Retail Forex

---

IN reference to : RIN3038-AC61

By enforcing such it takes away peoples right to choose. Like returning to prohibition days. Closes a lot of businesses and jobs, which the US doesn't need at this time. The idea is to get jobs, not take them away. It destroys the initiative of those who want to be in business for themselves. It can't be done with such leverage.

I can't believe you would do such a thing!
