Subject: Regulation of Retail Forex - RIN 3038-AC61

To Whom It May Concern:

I object to any rule change that will limit my options on how I trade the forex.

The Regulation of Retail Forex - RIN 3038-AC61 is just more big government saying that you know what is best for me. Unless you are going to also trade for me let me decide for my self what level of risk I want to take.

If you want to do some real good look for ways to limit the conflict of interest forex brokers have when taking the other side of a trade. Brokers that trade against their customers are in a position effect the outcome of the trade in their favor...if you are looking for something to regulate this is where you should focus your attention!

Thank you.
