Dear Sir/Madam/Ms

RIN 3038-AC61: Leverage 10:1 max in Forex Tradings in USA:

Against the idea because it will:

- 1/ Harm the inflows of cash funds or valuable assets into USA which at this time is extremely needed to shower consumer confidence in the market places and to booster million of job opportunities else more home foreclosures prevail;**
- 2/ Restrict honest forex trading businesses in USA which in turn causes such flight of funds out of USA into Europe, Australia, NZ and East Asia, thus making USA looking ridiculously "small" though it tries to maintain its world Reserve Currency Status ; and**
- 3/ The freedom of choices to do business in forex which USA used to capture the world imaginations in such magnitude that once seemed inseparable, but it is showing weaknesses and and looking frail now.**

Blame and very harshly punish those dishonest rascals in fouled forex businesses and transactions in USA and that should fix up the whole issue of misfits in forex trading businesses; otherwise US Congress may have to do away with Human Rights activities, entirely & globally, not just inside USA.

**Sincerely,
Edward**
