**Subject:** Regulation of Retail Forex

---

Mr/Mrs Secretary,

In reference to RIN 3038-AC61, I think it is imperative that one's freedom to choose their own leverage is left in place. Many investors and traders alike, benefit from the higher leverage. One would be sucking the life out of people who depend on the higher leverage. Open outcry is helped by more traders/investors in the market. Lowering this leverage to dirt floor levels will destroy Forex market.

Thank you,

DM
