Subject: New CFTC Forex Margin Proposal

Dear CFTC secretary,

I am a British forex trader and I just wish to state my full approval of CFTC to limit forex margin to 10:1 in the U.S.. This will be absolutely great for the U.K. when most of the US traders and brokers transfer their accounts over. Is this your real intention to help the U.K. financial industry? Please keep up the good work!

Best Regards
Frank Page
