Subject: it should not be changed !!!!!

i need at least 100:1 leverage. forex trading is my main income source.
but i don't have enough fund to deal with 10:1 leverage. if it is changed to 10:1 leverage, i will move my fund to different country.. it won't be just me.. lots of people will. so it will impact to forex industry badly. this is same as stock. i don't know why , who try to change to 10:1 leverage.. but it will be bad to everyone.
some people said forex trading is very high risk losing money.. i like to say.. are you guys worried about us ? ye right.. it is my money.. if i lose the money..that is my money.. this country is capitalim country..
that is disgusting.. i want to keep 100:1 leverage !!!!!!
