Subject: Regulation of Retail Forex

RE: Regulation of Retail Forex
ID: RIN 3038-AC61

To Whom it May Concern,

Freedom of choice is a concept embodied in US constitution, an inalienable right. In the matter of retail forex leverage, where a retailer makes the risks clear, the choice of leverage offered by a retailer should remain the decision of purchaser.

No one regulates which car you are allowed to buy, a fast one or a slow one. Both can kill you if you fail to learn how to drive.

Kind regards,
Kelvin
