Dear Mr. Stawick:

I am writing in support of the CFTC's Proposed Federal Speculative Position Limits that will reestablish speculative position limits on major energy commodities. I believe that it was the removal of limits in 2001 which has led to higher than necessary oil and gas prices due to speculation in the oil commodity markets.

I feel it is very important for the economy of our country that these limits be reestablished as proposed on your web site.

Sincerely,
