Subject: Regulation of Retail Forex

Dear Sir/Ma'am

Regarding the proposed regulation of retail forex (RIN 3038-AC61), decreasing leverage to 10:1, I would like to strongly request that this course of action be abandoned. This would destroy my ability to trade at all. While I do not reside in the USA, I do trade with an NFA regulated broker in the USA, and enjoy the privilege of earning part of my living from my trading account. This proposed regulation, if implemented would severely impact my meagre livelihood (pension).

Kind Regards,

Alan Lester
