Subject: Regulation of Retail Forex

Dear CFTC,

I am writing in response to the proposed 10:1 leverage proposal being considered for US Forex markets, reference **RIN3038-AC61**.

I am completely against this proposal, and I am sure most (if not all) other individual traders are also opposed to this. This is an assault on personal freedom of choice and the free market. I am against such policies which ostensibly are to "to protect us", but actually pave and lead us down the road to a socialist/Nazi managed economy.

I highly suspect that this is deliberately orchestrated so as to push money back towards Wall Street where the discredited, scandalous "experts" can further plunder Americas remaining wealth.

With the recent devastating change to 100:1 leverage , I am sure that many traders have moved their trading accounts overseas, and they will remain there. Forcing Americans to move their money out of the country is a very bad thing to do.

I strongly urge you to withdraw the 10:1 leverage proposal as it hurts Americans.

Kind Regards,

Dr. Mark W. Griffin
