Subject: REGULATION OF RETAIL FOREX

Dear CFTC Secretary,

I am a small forex investor and your proposed change in regulation will totally change the way I can trade.

With the actual economy is the only way people like me can make some extra bucks here and there and your are trying to destroy that possibility. I believe you do not know what you are doing, so please I urge you to reconsidered your decision, since will affect in a NEGATIVE WAY to a lot of small investors. Do not let any one put pressure on you because maybe you want to be re-elected and do what is right at list once in your life. DO NOT CHANGE THE 100:1 MARGIN LEVERAGE. Thank you for attention.
