Dear CFTC!

Personally, I protest against the introduction of legislation in the future CFTC. Does not protect the interests of the traders. Only protect against the failure of any starters in the short term. Good risk management that errors can be avoided. If new legislation is introduced in the fall of many smaller finan trader trading opportunity. If this happens I'll be forced to go through foreign brokerage firms. Please do not make the mandatory introduction of 10:1 lavarage!

Regards
