Subject: 'Regulation of Retail Forex' RIN 3038-AC61

The new proposal is just not fair to the new guys who are learning and just don't have the money. I don't trade a standard account because I'm learning forex trading and I don't have that kind of money. Someday when I do, I would like to opportunity to trade under the current leverage of 100:1.

Sincerely,

Dave Nuzzi
