David Stawick
Secretary, Commodity Futures Trading Commission
Three Lafayette Centre
1155 21st Street, NW
Washington, DC 20581

Dear Mr. Stawick:

This is not just another "form letter". I feel strongly about oil speculation and need your support on the CFTC's Proposed Federal Speculative Position Limits. You know it will limit speculation on major energy commodities, so I won't bore you with all the details. Just know that "We the People" need it, the economy needs, and adopt the limits without delay.

I am an unemployed American and we unemployed Americans need all the help and support a strong economy will give us. We don't need the government "creating" phantom jobs. We need to shore up the economy which will then lead to the creation of real jobs and get us back on track.

Our tax dollars were used to bail out large Wall Street firms when they were on the brink of bankruptcy. It is these same institutions that pushed the price of gasoline well past \$4 per gallon in 2008 by gambling on oil and continue to profit at every American's expense.

I encourage the CFTC to adopt the Proposed Federal Speculative Position Limits before volatile fuel prices further harm the country's already weakened economy.

Sincerely,

Cheryl Mullins
