Gentlemen, this is a terrible infringement on the rights of self determination! A forex trader should not be considered a complete fool that must be controlled by Government. You do nothing but drive all trading off shore. It is a shame that other countries have thinking, intelligent administrators, while the U.S. Government agencies seem to be completely void of reason and at time act like they must control every action of their citizens as if they could not make a decision for them selves. **DO NOT PROCEED WITH THIS PROGRAM.**
