Subject: Retail Forex

'Regulation of Retail Forex'
RIN 3038-AC61.

My position is simple the previous leverage level were too much for most. The current leverage is fine, plus it's my risk.

Further regulation to reduce leverages directly impact my bottom line to earn an honest living.... If the current leverage impacts the security of this country, then change it. If it does not, then try regulating Las Vegas and Atlantic casinos and good luck.

IT'S MY RISK, leave it alone.
