---

To Whom it may Concern,

As a retail forex trader I feel I have the right to choose the amount of leverage I should use. I feel the bill **RIN 3038-AC61** would directly affect me as a trader.... no it would put me out of business.

Allot of traders are like I am and trade for profit and as a hobby. I do not have \$50,000.00 in my account to trade with and this decision would take me out of the trading world which I love.

The government already regulates too much in this country, please do not mess with the Retail Forex market. I do not need the government telling me what is good or bad for me I should have the freedom to choose.

Thank you,

Mike Greer
