Subject: "Regulation of Retail Forex"

I find it disturbing that again, our Government is involving itself in regulation of Free Capital Markets. Regulating the Margin Rate will have absolutely No Impact on the ethics of corrupt brokers and dealers.

This market is a market that is Global, handicapping the United States Citizens who participate in the very liquid and very precise operations of this market will only ensure less liquidity, more job losses and higher fees.

Please vote NO on this and for once, let the markets take care of themselves. We are doing just fine as things are.

Yours sincerely
