Dear Mr. Stawick:

I am writing in support of the CFTC's Proposed Federal Speculative Position Limits that will reestablish speculative position limits on major energy commodities.

We, as hard working Americans are SICK AND TIRED of literally being pumped out of our money because the free market of supply and demand is being circumvented by MASSIVE players in commodities.

It does not matter how anyone explains it, demand for gas is down, supply is up, and prices are up. Those are the facts, where is the free market?

Protect the American people! Protect our true free market system that benefits the consumers!

Sincerely,

Matthew Saunders
