Subject: 'Regulation of Retail Forex'

Hello,

I would like to say that I **DO NOT** support the proposed changes by the U.S. Commodity Futures Trading Commission (CFTC) that were announced on January 13, 2010 concerning retail Forex trading. The ID RIN 3038-AC61 is a horrible idea.

People need to have the right to make their own choices and they should be allowed to. Once again I DO NOT support these changes, and ask that you the decision makers on this matter listen to the people!

Tokie M.
