Subject: New purposed Regulation

To Whom it may concern:

I am a small time 'Forex' trader' who trades with a mini account. the current leverage has made it possible for me to suppliment my income with a small balance (\$1000- \$2000). The new regulations of dropping the leverage to 10:1 would make it unworthy to spend the time trading through a U.S broker and would force me to seek outside brokerage at greater risk. I sure hope this does not become a 'law'.

Sincerely, Rod Slotterbeck
