CFTC Comments

Dear CFTC Comments:

I am writing in support of the CFTC's Proposed Federal Speculative Position Limits that will reestablish speculative position limits on major energy commodities. This rule will provide stability to the marketplace and help prevent future price bubbles. The CFTC must quickly approve a strong rule to protect America's struggling economy.

Our country has been hurt long and enough times by the unregulated wilderness of Wall Street. The American people need a Wall of protection and the CFTC's rule for derivatives. I support this rule and I hope you all do too. Thank you.

Sincerely,

Michael
