CFTC Comments

Dear CFTC Comments:

I am writing in support of the CFTC's Proposed Federal Speculative Position Limits that will reestablish speculative position limits on major energy commodities. This rule will provide stability to the marketplace and help prevent future price bubbles. The CFTC must quickly approve a strong rule to protect America's struggling economy.

We need a true economy with all deals made in the open so everyone knows what is taking place and can therefore do the RIGHT thing for the best for all.

Sincerely,

Bernie Schatz
