Subject: Regulation of Retail Forex

Dear Sir / Madam,

It has come to our attention that the CFTC is trying to limit the max leverage to 10:1 - RIN 3038-AC61.

We see no reason for the adjustment after limiting it to 100:1 recently. The NFA restrict hedging and enforced FIFO, and now this.

Obviously, there is a hidden agenda. It is discriminating and uncharacteristic of what the USA stands for.

It is definitely objectionable and should not be tolerated.

Your effort to block this attempt is appreciated.

**Thank you
Artee**
