Subject: 'Regulation of Retail Forex' : Identification Number: RIN 3038-AC61

Hello:

My account number with IBFX is: 6029857.

I don't agree with the proposal of leverage 10:1.

I think that the brokers should improve the education about the market , Forex.

But the decision of Leverage is only of the users.

An idea: The Brokers should apply exam, test, about Forex, (after Education Program) for the new users.
If the user get more than 80% then, the user can open account with the broker.

Best Regards.
