Subject: Position limit on COMEX silver trading

Dear Sir;

Thank for your recent investigation on the issue of position limits for precious metals. I think based on the evidence presented by GATA, Theodore Butler and so on we do have a case of market manipulation via naked short.

In order to maintain the credibility and integrity our market, please establish a speculative position limit in COMEX silver of no more than 1500 contracts. Please restrict any hedging exemptions from those limits to legitimate hedgers. Please stop the levels of concentration in COMEX silver futures that have been experienced over the past few years on the short side of the market. Please require the short sellers to prove they have the physical metals behind the contracts they are selling.

Sincerely,
