Subj: Position Limits for Comex Silver

Dar Sir or Madam,

I appreciate the opportunity to write to you on what I believe to be a very important matter ie; position limits for precious metals. Specifically, I would like to ask that you establish a speculative position limit in Comex Silver of no more than 1,500 contracts. I believe that excesses in this regard have caused market imbalances especially during the past several years.

Please restrict hedging exceptions from those limits to legitimate hedgers. And most importantly, please stop the level of concentration in Comex Silver Futures on the short side of the market which to the extent these sometimes very large positions have been taken over the recent past, clearly seems to be for the benefit of only a select few.

Thank you for your consideration.

Respectfully,

William A. Lincoln  
Clemmons, North Carolina
