Subject: position limits

Hello sir: I would like to comment on position limits for precious metals. I feel you must establish a speculative position limits in COMEX silver of no more than 1500 contracts. At the same time restrict any hedging exemptions from those limits as well, to legitimate hedgers. I would urge you to please stop the levels of concentration in COMEX silver futures that we have seen over the past few years on the short side of the market.

Thank you for your consideration in this matter

George Johnson
