Subject: precious metals position limits

Dear Commissioners;

Thank you for the opportunity to comment on position limits for precious metals. I am a retired registered nurse. I have worked long and hard all my life. Over the years I have purchased silver in hopes of helping out my retirement years. Please do what is right.

Please establish a speculative position limit of no more than 1500 contracts.
Please require metal and/or sufficient margin deposits for all short sales.
Please restrict hedging and levels of concentration in COMEX silver futures.

Integrity is the greatest legacy a leader can leave!

Thank you .

Eric Hall
