---

*"The stated mission of the CFTC is to protect market users and the public from fraud, manipulation, and abusive practices related to the sale of commodity and financial futures and options, and to foster open, competitive, and financially sound futures and option markets."*

If that s your mission and what has been revealed by the Morgan Chase Bank is true (100-1 silver fractionalization) then we the public have not been protected. We are tired of trusting people only to have them fail us again and again. I for one am lucky that I have not been injured with the fractional Silver Certificates and am glad for once that I have not trusted a federally sponsored mouth piece but instead chose to use my own mind which is far more creative than you.

I am sure you have thousands of emails to sift through and thought I would throw in my two cents. You are FIRED. Never will you gain my trust. You nor your agents as your word is bankrupt.

Jacob Edmund Of the Hiller Clan.
