Subject: SILVER MARKET MANIPULATION IS CRIMINAL!!!

Dar Mr. Stawick:

I am a long time silver investor and know that our society would revert back to the 1850's if all silver was removed from our lives and the products that depend on silver in its manufacture. Silver is the "INDISPENSABLE METAL". To realize that Morgan Stanley and other banking and speculation companies are systematically manipulating the silver market and driving the value of my investments by selling short and holding huge silver shorts. This causes instability in the market place and the market does not accurately reflect the true value of this miracle metal. Short contracts should be limited, in my opinion, to less than 1,000 COMEX contracts per organization and be forced to buy back their contracts at a loss

Thank you for your consideration
