Subject: Issue of position limits for precious metals, Commodity Futures Trading Commission

Date: 4-22-2010

Dear Sir,
Secretary of the Commission Commodity Futures Trading Commission

Thank for the opportunity to comment on the issue of position limits for precious metals. Please establish a speculative position limit in COMEX silver of no more than 1500 contracts. Please restrict any hedging exemptions from those limits to legitimate hedgers. Please stop the levels of concentration in COMEX silver futures that have been experienced over the past few years on the short side of the market.

I am a small silver investor here in the United States of America. PLEASE STOP, JP MORGAN of the high levels of concentration in COMEX silver futures that have been experienced over the years on the short side of the market!!

The American People can see very easily the fraud and corruption that is happening around them. Please fix this problem before it goes to public hearings at the white house and in the halls of litigations. The Securities and Exchange Commission to discussed fraud charges against JP MORGAN with the White House in advance.

It is your job to stop this, Commodity Futures Trading Commission!!!!

Sincerely,
James Salazar
